Find out more about
Trivselbygden at
trivselbygden.se

The beautiful area Trivselbygden is located in the borderlands between Halland, Småland and Västergötland. This wonderful landscape, with its many glittering deep blue lakes, lush deciduous forests and red-tinted wild strawberry meadows, is the habitat for a multitude of animals and plants both great and small. At times, the old-growth fir and pine forests are adorned by characteristic carpets of moss and the fantastic scents of summer. In the blink of an eye, the landscape picture changes and fertile fields and meadows dominate withgrowing cairns and wild flowers.

Scattered through the forests like a string pearls, you will come across lakes of various sizes with abundant stocks of fish. Together with the blue waters of the Ätran river, which meanders calmly and serenely southwards through the valley, this is a paradise for both hikers and bird watchers, as well as for canoeists and fishing enthusiasts!

During your stay in Trivselbygden, you will constantly be standing on historical battlefields. Once upon a time, this was the border between Halland, then part of Denmark, and Sweden and many bloody battles were fought in these green fields before peace finally arrived. Periodically, the area was so badly torn and devastated by war that nearly 90% of the farms were exempt from paying taxes. At present, the traces left by wars are still visible in the form of old embellishments, fallen ancient castles and distinctive boundary stones, to name a few examples.

Photo Lina Efraimsson

There are numerous ancient monuments and interesting historical buildings, waiting to reveal their exciting stories just for you. Ancient burial sites, rune stones, cultivation cairns and long stone walls also give the natural environment its distinctive genuineness. We dare to say that there is a gem for everyone here: on land or at sea, on a modern plant or in a clearing in the forest. You will find here places that will touch your heart – your journey begins here!

TOURIST INFORMATION

Thanks to the fact that Trivselbygden includes villages from three different municipalities, you have a number of tourist agencies to turn to for more information and an improved holiday experience.

Hiking

IN THE BEAUTIFUL TRIVSELBYGGEN

Whether you belong to those who obviously book a range of activities on your holiday, or if you are looking for stillness for recovery and reflection, it can make sense for body and soul to spend a few hours out in the pleasant countryside's (Trivselbygden) beautiful recreation areas. The paths and trails are differently designed, passing through forests and along lakes, over historically interesting lands and to beautiful vantage points. You can hike on roads, forest paths, in mountainous or flat terrain – the choices are entirely your own.

It is common for our routes to be signposted or described in stages, and on several of them there are tables and benches for rest and socializing. Why not bring the picnic basket and eat lunch in the open air?!

More information, maps and brochures of the area, can be found at the tourist office in Svenljunga, Falkenberg, Fegen and Kinna.

ÖSTRA FRÖLUNDA

1 Kurirleden

Coordinates: 57.335661, 13.0331103

Hiking trail, 50 km, running between Kindahus in Östra Frölunda and Öresten fort in Mark municipality. Around 600-700 years ago this would have been a route ridden by couriers (kurir) carrying post between the two strongholds. NOTE! Sometimes there's poor maintenance and lack of signage.

Photo Madeleine Redman

Wander through stunning forests and along mirrored lakes at your own pace.

HOLSLJUNGA

2 Gräne Mine

Gräne Gruva 1, 512 64 Holsljunga

The area around the old Gräne Mine has a number of hiking trails. Trail No. 1 runs for 1,800 metres up to the top of the hill. There are picnic tables both at the top of the hill and along the trail. Both rest areas have a fantastic view of Lake Hallängen. Trail No. 2 is 3,600 metres long, initially follows the old railway embankment and crosses the bridge before turning north towards goat ridges, kettle holes, water locks and other sights, after which you turn back to the mine. Work on a "troll" trail of approximately 400 metres began in 2020 and is due for completion in 2021. This is directly adjacent to the mine and there is information on local flora and fauna along the trail, where we hope the occasional troll may be spotted among the rocks. Trail No. 3 runs from the car park northwards up to the south of Lake Holsjön, then past Fäxhult's Mineral Springs, and past Fäxhult's Cave to end in our Rhododendron Park. Rhododendron Park now has around 500 bushes, which we hope will bloom in May and June; take the time to sit and meditate by one of the three ponds. Next to our barbecue area is a roofed shelter and windbreak. Our popular Trollstig (troll trail) is nearby with Gruve the mine troll, and an adjoining play area, also under expansion.

THE HIKING TRAILS THAT ARE READY FOR SEASON 2021 INCLUDE:

ÄLVSERED

3 Östdanmark hiking trail

Ålarp, 311 63 Älvsered
+46 70-34 12 580
gransleden.se

The trail starts at "Hättsten" in Ålarp. The stone is an ancient boundary mark between the former Danish Halland's province and Sweden. Here you can hike on historical grounds on one of Halland's most beautiful trails! The hiking passes through large forest areas, by streams, lakes and bogs with footbridge paths. Along the trail there are five geocaches hidden and there are also 35 displayed signs aimed to inform about the historical events that have taken place along the trail. Two alternative routes; A circular loop of 9 km and an A to B loop of 17 km are available. Food, coffee and lovely baths are available to enjoy near the trail.

KINDAHOLM

4 Pilgrim's way hiking trail

Starting from any church in Kindaholm: Mårdaklev, Kalv, Håcksvik or Östra Frölunda.

On historical grounds, in a fairy-tale nature, you walk entirely at your own pace between the four churches in Kindaholm. Pilgrimsleden (Pilgrim's Way) is well marked with red signposts and is about 44 km long. The hiking goes on trails and smaller roads with low traffic and the enchanting beautiful places are replacing each other along the way. The trail can be started at any of the four churches, or at one of the neighbouring destinations. Food, coffee, accommodation and cooling baths are found along the route.

MÅRDAKLEV

5 Klev Nature Reserve

Klevs Gästgiveri, 512 62 Mårdaklev

The beautiful nature reserve has a multitude of trails with great information boards in Swedish, German and English. Texts and images describe the species of plants and animals that live there, and also the area's exciting military history. The trails run through troll forests and glades, uphill and down and past ancient remains. The site was long one of Sweden's southernmost fortifications, and many bloody battles were fought here! The breathtaking wooden steps up the cliff lead to a lookout point with spectacular views. Picnic tables, a café, local museum, handicraft shop, a B&B and an evening restaurant can all be found in the area.

KALV

6 Backa hiking trail

Övre Backa 1, 512 61 Kalv

Starts from the picturesque Backa Loge, along the beautiful shores of Lake Fegen and into the nearby wilderness. Beautiful and peaceful in varied nature with bathing, diet and lodging facilities in connection. Distances of 2.5, 5 and 7.5 km.

ÖXABÄCK

7 Jogging Track at Öxasjön lake

Öxavallsvägen 10, 511 95 Öxabäck

HÅCKSVIK

9 Påarps Gård

Påarps Gård 1, 512 95 Håcksvik

There are several hiking trails of different lengths, including the famous 'Farmer's Mile' that begins from Påarp's Gård's magnificent location. No matter which one you choose, you'll be rambling through striking natural beauty with meadows, woods and streams along your trail.

HÅCKSVIK

10 Kisteberget hiking trail

Drive from Håcksvik towards Sjötofta. After 1 km, stop the car beside a small blue sign pointing towards a forest road.

Follow the blue marked poles for 1.5 km where an adventure awaits you at Kisteberget. See more information under See & Do/culture/ Kisteberget.

Cycle as fast as you can

AND CALM THIS SUMMER!

The entire Trivselbygden consists of a swarm of roads and paths and offers both to the experienced and the beginner cyclist many intriguing choices. Trivselbygden's position means that the gateway to three different landscapes is within cycling distance. Maps are available at our tourist offices in the local area, both in the municipality of town, Svenljunga Municipality and Falkenberg Municipality. Traffic is usually small or non-existent and with a good map, the whole Trivselbygden area will be transformed into a big bike park!

EXAMPLES OF MARKED CYCLE ROUTES THROUGH OR TO/FROM TRIVSELBYGDEN ARE:

HOLSLJUNGA–ÖVERLIDA

12 Pyttebaneleden, 8 km (Hiking & biking trail)

In 2021 and 2022, the section between Holsljunga and Överlida was renovated and gravelled to form a cycle track. The trail will be signposted as Pyttebane Trail in time for its inauguration in June. However, information boards about points of interest along the trail will be delayed until next year. But we can mention that a rest area will be constructed by the bridge over the Hiån river, roughly at the halfway point. There will also be a renovated motorised rail trolley and a section of track on sleepers.

SVENLJUNGA–HOLSLJUNGA

13 Holsljunga tour 52 km

The tour goes on gravel roads and smaller country roads in a varied landscape. At times, the big forest fades gradually, being transformed afterwards into open farmlands with fertile lands and blue watercourses. Alternating flat and hilly areas Along the tour there are accommodation opportunities for the overnight stay as well as the possibility of lighter ingestion and a dip in the blue! Cycling following a map with detailed stage descriptions.

Historical and listed sports ground. Öxabäck is called the cradle of women's football with its legendary women's team, Öxabäcks IF. Some workers at the village's garment factory joined forces and started playing football together in their spare time. This was the kick-off for the women's team that was officially launched in 1966, and was one of the of its kind in Sweden. Before it was disbanded in 1995, the team had brought home six SM GOLD and six WINS in the Swedish Cup. Today it is only the men who play football at Hagavallen.

HÅCKSVIK

Kisteberget

512 95 Håcksvik

Drive from Håcksvik towards Sjötofta for approximately one kilometre. Then follow the blue signs.

Mythical location just outside Håcksvik. "Kisteberget" has a deep karst formation that you can go down into. It's rumoured that there's ancient treasure buried there. You wouldn't be the first to try to salvage it because many have tried before, and failed. If the legend is correct, it would be quite an advantage if there were several of you in the party because there is a challenging cleft in the rocks that you might like to take on. It's narrow, high and winding, so you might get a few butterflies in the stomach when you squeeze your way in and clamber down to the bottom. Once there, you can certainly sense the lightly damp air that greets you from the high rock walls and the thought hits you that this is a place you want to be sure to be able to get out of. At the same time, the heart beats a little faster and you are proud and satisfied when you do come out. Certainly worth a cup of coffee from the picnic basket! More information under "Hiking".

KINDAHOLM'S PARISH

80 Håcksvik's Church

This wooden church is built in neoclassical style and opened in 1826. It replaced the shingle-clad building that had served as parish church since Catholic times. The tower has its own history and may have originally been a watchtower when the old border ran along the Stång River. An altarpiece originating from the old church stands at the baptismal font which dates back to the 12th century. The church is open Sundays 3, 10, 17 and 24 July 15:00–8:00.

Sunday 3 July at 18:00 in Håcksvik Church Eivy vocal ensemble – a girl quartet singing songs and popular music in folksy tones. One or two instruments might also appear.

KINDAHOLM'S PARISH

81 Mårdaklev's Church

For at least 800 years now, a church is erected on the hill surrounding the Ätran river. The current building was erected in the years 1875–1876 and the baptismal font dates back to 13th century, the altarpiece and the pulpit (preaching chair) are furnishings from the former 17th century church. The altarpiece depicts Christ on the cross and is declared to be the work of a Dutch master, a copy of Rembrandt. The pulpit (preaching chair) and altarpiece are created by Sven Nilsson Morin. The church is open Wednesdays from 29 June 14:00–16:00. Service at 14:00. Coffee, pastries.

Sunday 31 July at 16:00 in Mårdaklev Church Jenny and Samuel Grahns, songs and guitars. Songs of faith, trust, and meaningfulness in life.

ÄLEKULLA PARISH

84 Älekulla Church

The church is built in stone and originates from the Middle Ages. The church area within the building is richly decorated with paintings. The ceiling includes the six creation days, produced by the Church painter Ditleff Ross (1760). In 1794, these paintings were supplemented with motifs from Genesis, by I M Hultgren. The altarpiece is made in 1796. An older altarpiece dating back to 1687 is set on the southern long wall. The oldest inventory in the church is the richly decorated baptismal font in soapstone from the 14th century. The big bell is from 1590, the little bell bears the year 1732.

KINDAHOLMS PARISH

82 Östra Frölunda kyrka

Stone church is erected in 1826. The baptismal font in sandstone is octagonal and made in Västergötland (West Gothland region) during the 12th century. The pulpit (preaching chair) is quite unusual with its triangular shape and concave pad edges. It is adorned with two golden medallions, depicting Martin Luther and Gustav Vasa. The church is open in conjunction with worship services.

Sunday 17 July at 18:00 in Östra Frölunda Church 'Håll mitt hjärta'. Samuel Björkman, Eva Kälvelid and David Norén sing and play various instruments.

KINDAHOLMS PARISH

83 Kalv's Church

Built in neo-Gothic style and inaugurated in 1900, after the previous 19th century church burned down. The new Kalv's church was built based on the drawings by Carl Crispin. From the former churches, the baptismal font dating back to 13th century and the wooden sculptures from the 17th century have been preserved. They adorn the west wall. At the back of the church, a work by Eva Spångberg is visible for the visitors, depicting the angel Gabriel and Maria. The Church is open Tuesdays from 28 June 09:00–11:30. Service at 09:00. Coffee & pastries in parish hall garden.

ÖXABÄCKS PARISH

85 Öxabäck's Church

Öxabäck's Church was erected in 1874–1875. The tower in the West has an unusual architecture and with its staircase tower it resembles the churches in Denmark. In the church there is a so-called the Calvary group painting – a Christ painted with Mary and John on Calvary. This is a prestigious cultural work in oak from the Middle Ages. A baptismal font of soapstone originates from end of the 13th century. The large bell is of a late medieval type.

Morema is located in Håcksvik and is run by Monika Söderberg, a qualified reflexology therapist and wellness masseuse who provides classic massage. I offer classic massage, raindrop massage, deep Tibetan facial massage and reflexology. As a reflexologist, I seek to release blockages in the body to achieve a flow and put the body in a better condition to heal itself.

Raindrop massage is a soft massage where I work with essential oils that help to release any blockages in the neck and back. I use pure, chemical-free essential oils.

Deep Tibetan facial massage is a treatment that promotes peace and calm; the system works by tightening the face and promoting circulation. It also stimulates the lymphatic system. I also apply scalp and neck massages. During the final relaxing part, I massage hands and feet. I also make sure you get the added energy you need for the day. Reservations via telephone. Welcome!

THE AMAZING Allemansrätten (Freedom to roam)

Thanks to “Allemansrätten” (the right of public access) everyone can roam freely in the Swedish countryside. However, there are certain things you must bear in mind when you are out hiking, camping, climbing, picking flowers or anything else in the forest and countryside.

“Allemansrätten” gives us all access to the countryside. Therefore it is our shared responsibility to safeguard this ancient practice, not least by showing consideration when enjoying the countryside. Remember not to disturb the landowner or to damage the nature you are staying in.
